

PRESS RELEASE

FOR IMMEDIATE RELEASE:

Para Tech Coating Obtains ITAR Registration with the United States Department of State

ALISO VIEJO, CA (October 30, 2010) – Para Tech Coating, Inc. (“PTC”), a global provider of vacuum deposition equipment, Parylene conformal coating service and raw materials (dimer), announces that it has been approved for, and is in compliance with, the International Traffic in Arms Regulations (ITAR) administered by the United States Department of State Directorate of Defense Trade Controls. The ITAR approval controls the export and import of defense articles and services.

ITAR registration and compliance is an achievement for Para Tech Coating and builds upon the company’s existing and expanding support for a growing list of military and defense customers by complying with the Arms Export Control Act (AECA). As an ITAR registered company, Para Tech Coating has met the corporate procedures and control requirements for compliance to fully participate as an approved supplier for a wide variety of military and aerospace customers within the United States.

“Para Tech Coating’s ongoing commitment to quality and meeting the needs of our customers is what makes us stand out within our marketplace,” said William Gleason, General Manager. “The company’s ITAR registration and compliance demonstrates that commitment, and our drive to constantly improve and expand our capabilities. Our military and aerospace customers can be assured of a knowledgeable and reliable source for conformal coating of their parts and components.”
